

PRINCIPAL'S UPDATE

NEWSLETTER – Week 35

20 June 2025

Dear Parents/Carers

This week we finally said goodbye to our Year 11 cohort. This was marked with the annual leavers assembly which we held on Wednesday morning. It was a great event and very emotional for some. Staff and students had the opportunity to watch photo reels of their time at the academy, sign shirts and wish each other the best for the future. It was a lovely event.

Also, this week, we will say goodbye to our Year 13 cohort who have been a pleasure to teach over the last 2 years. Their hard work and dedication has set an excellent example to the Year 12s and future 6th form students.

We are now fast approaching some of our favourite events of the year. You'll be able to see from the list below that we are heavily committed to providing exceptional experiences for our students, this includes inside and outside of the classroom.

Thank you once again for your continued support.

Yours faithfully

Mr Ransome
Principal

Key Dates:

Tuesday 24 June
Year 8 Online Parents
Evening

Friday 27 June

- 18.7.25**– Last Day of Term

MLT Maths Trip to London

Our students have had an unforgettable time exploring the real-world wonders of Maths in London! They held a real gold bar at the Bank of England, enjoyed a delicious evening meal at a French restaurant, took part in a maths trail through the iconic Covent Garden and wrapped up with hands on discovery at the National Science Museum. A fantastic experience that brought maths to life outside the classroom – full of learning, laughter and lasting memories!

PSG Academy Football Tournament

Year 7 and 8 Girls and Boys teams took part in the PSG Tournament at St. Mary's College, Sheffield last week. All four teams played very well and there were some exceptional individual performances. Well done to you all!

Life Skills

In the final half term, Year 7 are looking at career's skills and aspirations as part of the living in the wider world topic. Students are encouraged to have conversations with people at home about their jobs, including qualifications, skills and day-to-day tasks that the job requires. It would be fantastic if parents and carers could encourage conversations with our young people to get them thinking about future careers and job possibilities! Later on this term, students will also be using the platform Unifrog which offers a range of activities and information for students to explore. Why not have a look at the website this week and see if your young people have set up their profile yet?
