RATIONALE

Maltby Learning Trust is committed to providing an appropriate and high-quality education for all students attending one of the Academies. All students, including those identified as having special educational needs, have a common entitlement to a broad and balanced academic and social curriculum, which is accessible to them, and to be fully included in all aspects of Academy life.

All students are valued equally. The Trust strives to eliminate prejudice and discrimination and to develop an environment where people can flourish and feel safe. All students will be supported and challenged to achieve better than expected progress, through high level support. This does not mean that we treat all learners in the same way, but rather that we respond to learners in ways which take account of their varied life experiences and needs.

Educational inclusion is about equal opportunities for all learners, whatever their age, gender, ethnicity, impairment, attainment and background. We pay attention to the provision for, and the achievement of, different groups of learners:

- Girls and boys
- Minority ethnic and faith groups, travellers, asylum seekers and refugees
- Learners who need support to learn English as an additional language (EAL)
- Learners with special educational needs
- Learners who are disabled
- Those who are looked after by a LA
- Others such as those who are sick; those who are young carers; those in families under stress; those on free school meals.

Special educational needs and disabilities provision is educational or training provision that is additional to or different from that made generally for others of the same age. This means provision that goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching. It may take the form of additional support from within the setting or require the involvement of specialist staff or support services.

Maltby Learning Trust has arrangements in place to identify the need for, and secure, such provision, whether through expertise and resources available within the Trust or by drawing on support from outside services. How this works in practice, at Wath Academy, is outlined in this policy.

The policy describes the way we meet the needs of students who experience barriers to their learning, which may relate to sensory or physical impairment, disability, learning difficulties or emotional or social

development, or may relate to factors in their environment, including the learning environment they experience in the Academy.

ROLES AND RESPONSIBILITIES

The SENDCo, with the Principal & Executive Principal and local governance committee, determine the strategic development of SEND policy and provision.

The key responsibilities of the SENDCO include:

- Overseeing the day-to-day operation of the Academy’s SEND policy;
- Co-ordinating of specific provision for children with SEND, including those who have EHC plans;
- Liaising with the relevant designated lead where a looked after student has SEND;
- Advising on graduated approach to providing SEND Support;
- Advising on the deployment of the Academy’s delegated budget and other resources to meet students’ needs effectively;
- Liaising with parents/carers of children with SEND;
- Liaising with early years’ providers, other schools, educational psychologists, health and social care professionals, and independent or voluntary bodies;
- Being a key point of contact with external agencies, especially the LA and LA support services;
- Liaising with potential next providers of education to ensure a young person and their parents/carers are informed about options and a smooth transition is planned;
- Working with the Principal and Academy governors to ensure that the Academy meets its responsibilities under the Equality Act (2010) regarding reasonable adjustments and access arrangements.

The Assistant SENDCo will assist the SENDCo in the day-to-day implementation of SEND provision and is the first point of contact for those with SEND concerns or enquiries.

The Assistant SENDCo within the SEND department plays a pivotal role in facilitating and coordinating the whole Academy approach to SEND. They work in partnership with the broader staff body, in their various roles as Subject teachers, form tutors and Managers to ensure the effective and efficient implementation of the Academy SEND policy.

STAFF WITH SPECIFIC SEND RESPONSIBILITIES

SENDCo:	Emma Greenfield
SEND Governor:	Jayne Dickson
Assistant SENDCo:	June Stone-Riley
Physical Sensory Manager:	Richard Matthews
PSN Staff:	Sharon Newell

Teaching Assistants (Full Time):	Stacy Chapman (ASC Coordinator) Gloria Bramhall (SpLd Interventions / Irlens) Caroline Brooke (SEN Admin) Adam Drake Lynsey Hadwin Jeanette Webster Ellie Mulcahy Brooke Hughes Courtney Strange
Teaching Assistants (Part Time):	Caroline Atkinson, Jaqueline Deveaux & Marion Lintern
Behaviour Support Manager:	Jacky Roebuck
Behaviour Support Assistants:	Rachel Merry & Kerry Rudman
Alternative Provision Leader:	Nick Handley
Exam Access Arrangements testing:	Sarah Chabowski
Step Up lead & Teacher:	Sarah Chabowski & Liz Matthews

LEGISLATION AND GUIDANCE

This policy and information report is based on the statutory Special Educational Needs and Disability (SEND) Code of Practice and the following legislation:

- Part 3 of the Children and Families Act 2014, which sets out schools' responsibilities for pupils with SEN and disabilities
- The Special Educational Needs and Disability Regulations 2014, which set out schools' responsibilities for education, health and care (EHC) plans, SEND co-ordinators (SENDCOs) and the SEN information report.

IDENTIFICATION, ASSESSMENT AND RECORDING OF SEND STUDENTS

A student has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for them. They have a learning difficulty or disability if they have: A significantly greater difficulty in learning than most others of the same age, or

A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools. Special educational provision is educational or training provision that is additional to, or different from, that made generally for other children or young people of the same age by mainstream schools.

The Academy aims to ensure that the identification and assessment of students with special educational needs takes place as early as possible and as quickly as is consistent with thoroughness.

Wath Academy keeps a register of students with special educational needs in accordance with the 2014 SEND Code of Practice (6.6 P.85) and maintains all records relevant to decisions made in relation to any student's registration.

To ensure early and accurate identification of special needs, the Academy has a range of procedures in place to cover the following:

- Parents registering concerns about students via the referral/concern form/dedicated SEND email address.
- Staff registering concerns via the SEND concerns referral form (see appendix 1)
- Referral to the Vulnerable Learners Meeting
- Collection of evidence from a variety of relevant sources
- Using relevant assessment tools to identify needs
- Use of data and Learning Cycle information to identify students who are not making progress in line with peers

The identification of SEND is built into the overall approach to monitoring the progress and development of all students.

The Academy will assess each student's current skills and levels of attainment on entry.

Class and subject teachers, supported by the senior leadership team, should make regular assessments of progress for all students. Where students are falling behind or making inadequate progress given their age and starting point, they will be given extra support. Students on the SEND register who are identified as not making better than expected progress for a graduated response approach will be followed and different waves of intervention implemented.

At this early stage, teachers may suspect that a pupil has SEND. While informally gathering evidence (including the views of the student and their parent), the Academy should not delay putting general teaching support in place where required. The student's response to such support can help identify their particular needs.

Better than expected progress can include progress which:

- Is similar to that of peers starting from the same baseline;
- Matches or betters the child's previous rate of progress;
- Closes the attainment gap between the child and their peers;
- Prevents the attainment gap growing wider.

Where students continue to make inadequate progress, despite high-quality teaching targeted at their areas of weakness, the class teacher, working with the SENDCo/Assistant SENDCo, should assess whether the child has a significant learning difficulty. Where this is the case, it should be agreed on the SEN support required to support the child and the SENDCo/ Assistant SENDCo should continue to follow the graduated response approach.

REGISTERING A CONCERN

Prior to primary transitions, the Assistant SENDCo will liaise with primary staff and the assigned SENDCo from the feeder schools and discuss and note the concerns of Year 5 and 6 class teachers, SENDCo and the Principals about students with special educational needs.

Any concerns that emerge after the primary transition will be raised through the following Academy procedures:

- Subject teacher Referral: Subject teachers should work with specialist support to identify where a student may be struggling with the demands of a course due to their SEND. Students who fall behind at school may have SEND, but should not be automatically identified as such just because they have lower attainment levels than their peers. Teachers must report concerns to the SEND team via the WA Special Needs Concerns form (see appendix 1).
- Vulnerable Learner Meeting: Referrals from the pastoral team, SEN, safeguarding, attendance and behaviour team regarding concerns particularly linked to SEMH should be referred through the VL meeting outlining clearly the Wave 1 provision and impact that this has had.
- SEND team network: The Special Needs department will pass on concerns about individuals to the SENDCo through discussions or during designated time for the SEN concerns meeting.
- Inclusion Team referral: PYLs and other staff must report concerns to the SEND team via the WA SEN Concerns Form (see appendix 1). The most appropriate provision would be discussed and a plan of action of how best to support would be agreed upon at the weekly concerns meetings. This may include a specialist pathway for the student.
- Parental concerns: Parents' concerns about their children's special needs may be passed on by them, either through reviews and meetings by contacting the Assistant SENDCo directly or by email to the designated SEN email. Weekly meetings will be held via invitation and will held in school each Wednesday for half an hour per appointment (Inclusion Support Meeting). This will enable face to face discussions and will allow key staff to be involved. Parents can complete a SEND Parent Concern form (found on the website) and send it to sen@wathacademy.com by email directly (see appendix 2).

SEND should not be regarded as sufficient explanation for low achievement, nor should there be an assumption that all children will progress at the same rate or that all children falling behind their peers have SEND.

SPECIALIST GRADUATED SEND PROVISION

For SEND students, we provide access to a broad and balanced curriculum that is differentiated to meet individual needs. Additional intervention and support are also provided. For students with significant learning difficulties, basic skills are taught, with aspects of literacy and numeracy to ensure a greater degree of learning independence. The approach is graduated (see Appendix 3).

ADAPTING TEACHING TO MEET NEEDS.

Teachers are responsible and accountable for the progress and development of the students in their class, even where students access support from teaching assistants or specialist staff.

High quality teaching, knowledge of needs and strategies to support individual students, is the first step in responding to students whom have or may have SEND. Teaching should be responsive to need and be adapted to support all learners to make progress. Additional intervention and support cannot compensate for a lack of good quality teaching.

Teachers should set high expectations for every student and aim to teach them the full curriculum, whatever their prior attainment. Teachers should use appropriate assessment to set targets which are deliberately ambitious.

Lessons should be planned to address potential areas of difficulty and to ensure that there are no barriers to every student achieving. In many cases, such planning will mean that these students will be able to study the full national curriculum.

Potential areas of difficulty should be identified and addressed at the outset of work. SEND strategies and overviews are available on the shared area for all staff to access and are also available through the SEND bulletin. Individual strategies to support are in the Individual Education Plans- all parents, students and staff have access to this documentation.

IEPs and evidence of how needs are met is expected to be in all Teaching Live Files.

TEACHING ASSISTANT SUPPORT

In addition to quality first teaching and a differentiated approach, students with SEND may also require extra attention and support for their learning needs. The focus of this learning support from Teaching Assistants (TAs) will be in the mainstream classroom where these students will be taught alongside their peers. The general objectives of TAs' in-class support:

- Active involvement in lessons and proactive provision of support for students, including those with special needs, ensuring their safety and access to learning activities.
- Adjustment of activities according to student responses, to ensure differentiation and/or challenge.
- Monitoring of students' responses to learning activities and providing feedback to the teacher
- Providing feedback to students in relation to progress and achievements, under the guidance of the teacher.
- Showing knowledge of subject and criteria through use of questioning/learning tasks to check understanding of tasks and to facilitate progress.
- Promoting a positive climate for learning and model good behaviour. Challenging behaviour and implementing Academy standards.
- Establishing constructive relationships with students and interacting with them according to their individual needs.
- Demonstrating a good knowledge of SEND barriers in lesson and targeting support appropriately to meet individual needs.
- Encouraging students to work independently with others and engage in learning
- Extending learning through differentiated tasks, plenaries and checking progress before moving onto next tasks.

It is the SENDCo's responsibility to establish a framework of learning support across the curriculum. The allocation of TAs to classes will depend both on student priorities and statutory allocation - to meet the requirements of students with statements and EHC plans and to meet the needs of other students on the Academy's SEND Support Log; and subject priorities - where priority will be given to the core subjects of English, Maths and Science and then to areas where students will require most help with reading, writing and conceptual understanding.

The Assistant SENDCo will co-ordinate the timetables and deployment of TAs. The Assistant SENDCo will co-ordinate interventions and ensure a graduated approach is in place and SEND department documentation is complete.

There will be circumstances when individuals or small groups of students may need to be withdrawn from their mainstream lesson to work with specialist staff to ensure better than expected progress is made - the class teacher will remain responsible for students within the group.

SEND INTERVENTION BEYOND (WAVE 2-4)

A graduated response to intervention is in place to closely track, assess and monitor students and the progress they are making. SEND Intervention documents must be completed by the Assistant SENDCo and TAs and are quality assured each half term by the SENDCo and the Assistant SENDCo / TA in charge of overseeing the intervention. Files are maintained centrally and are reviewed to ensure interventions are impactful.

Students are identified for intervention by SENDCo/Assistant SENDCo/Subject teacher.

Process:

- Students discussed with SENDCo/ Assistant SENDCo
- Appropriate plan/provision planned for student
- Discussions with KS Subject Specialist/Class Teacher/Subject Leader
- Contact with parents to inform them of the process
- Subject teacher/Leader informed
- Students informed of time and day to attend
- Intervention logged on Student Support Log
- Intervention tracker and planning document completed by TA
- Students attend intervention
- TA plan record and monitor intervention- saved on central area for teachers to access: All staff onedrive, SEN all staff and SEN interventions
- At the end of interventions, parents will be contacted by the SEN team to advise outcomes of next steps

Reviewing Interventions:

- Discussions during Assistant SENDCo / TA meeting
- Discussions with subject teachers to assess impact
- TAs observe impact via support in class
- Learning Cycle data
- Discussions with parents
- Discussions with the student- student voice recorded.

SEND CATEGORIES AND SUPPORT

To provide a robust and graduated response to SEND, once a potential special educational need is identified, the Academy will act to put effective support in place.

These actions form part of a cycle through which earlier decisions and actions are revisited, refined and revised with the growing understanding of the students' needs and of what supports the student in making good progress and securing better than expected outcomes.

Students who are identified as having SEND are monitored via the SEND Register and Intervention Log. Intervention and provision are recorded on the SEND Intervention Log and is reviewed half termly. All staff have access to SEND information via SIMs and the shared area- SEND information is maintained by the SEND admin team and is kept up to date.

COGNITION AND LEARNING:

Specific Learning Difficulties: Dyslexia/ Dyscalculia/ Dyspraxia/ Moderate Learning Difficulties

Students with dyslexia/ dyslexic tendencies may need literacy support and handwriting may be an issue identified for specific intervention. Students will attend intervention sessions during tutor periods or after school with a TA. Students will have access to coloured overlays/paper/exercise books/reading rulers if needed or identified as having visual stress.

The SEND department may carry out a dyslexia screening test to pinpoint specific needs to tailor bespoke interventions to support students' needs. Other testing will be carried out to identify areas of need regarding reading comprehension, reading/writing speed, reading age and hand writing issues.

All teachers have access to Dyslexia/MLD/Literacy information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the IEPs and individual needs will be logged on the SIMs network for all staff to access. PLD training sessions will go ahead for all staff to attend to improve knowledge of SEND and for staff to access information regarding the cohort.

SUPPORTING LITERACY

Year 7 and Year 8 Students who are identified as having below average literacy levels in relation to their peers may access the 'Step-Up' Provision where a bespoke curriculum is delivered to rigorously support students' literacy needs. Students will have a differentiation plan outlining the provision to support individual needs around literacy and will detail resources used to support the individual students.

To further support the Step-Up cohort ,Y7 and Y8 students will access weekly sessions with trained staff and follow the Read, Write, Inc. Fresh Start program which supports students who are reading below age-related expectations, using a phonics-based approach. It enables students to become confident, fluent readers and writers, who can access the wider curriculum. Suitable students may access specific literacy interventions with trained inclusion staff such as touch type, spelling, handwriting and reading.

Students will have an opportunity to graduate out of 'Step-Up' in Y7 and Y8 if they are consistently working at a reading and writing level that is in line with their peers. At Key Stage 4, students who have not graduated will be supported through 'Curriculum Support' and will have additional support with literacy and numeracy. Students will also have support around option subjects to ensure progress is in line with their peers and progress made is better than expected.

From Year 9, students will be assessed for exam access arrangements to ensure they could achieve the best possible outcomes. Students may qualify for a reader/scribe and/or extra time for all examinations. The SEND department will ensure that access arrangements are in place and are in line with the JCQ regulations.

COMMUNICATION AND INTERACTION:

Speech, language and communication needs; Asperger's syndrome and Autism

All students with Autism (or Autistic traits) will be monitored by the key specialist in the Academy via Learning Cycle data, Teacher feedback, observations and meetings. All students with ASC will be invited to be part of the Social Skills Group via contact with a keyworker, small group interventions or 1 to 1 intervention which runs from Y7 to Y11 and into 6th form. It offers sensory profile, IEP and keyworker which lasts 6 weeks and is bespoke for the group of students who are taking part. Key staff will liaise closely with the Autism Communication Team termly and will refer for further advice or intervention if necessary.

Speech, language and communication needs: Students will be referred to the Speech and language service if there is a concern or support is needed. The Speech Language and Communication (SLC) team work closely with the Academy and will provide interventions and/or strategies for students to improve their SLC need. TAs will support students and intervention, to practise strategies, may be arranged.

All teachers have access to speech, language and communication needs information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the SIMs network for all staff to access. PLD training sessions will go ahead for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

SOCIAL EMOTIONAL AND MENTAL HEALTH DIFFICULTIES (SEMH):

Social and emotional difficulties which may include becoming withdrawn or isolated, as well as displaying behaviour; ADD, ADHD or attachment disorder.

The Academy recognises and understands the importance of Social, Emotional and Mental Health needs and the impact SEMH has on academic achievement. Therefore support is in place to meet the needs of children with SEMH through a committed Pastoral Support Team consisting of;

SEN, Behaviour Support Team, Pastoral Year Leaders, Alternative Provision Base, BSU provision, MAST, Safeguarding team, Mental Health Practitioner, With Me in Mind provision and ELSA interventions.

If necessary, students will access outside agency provision through referrals to; the Early Help Team, MAST, Family MAST, Rowan, Local Authority, Educational Psychologist, Swinton Lock.

BEHAVIOUR SUPPORT PROVISION:

Students with emotional, behavioural, mental health and social difficulties who find it difficult to conform to school policies and regulations consistently, or need additional support around their emotional needs, may be identified to join the BSU provision which;

- Provides students with the opportunity to build a positive and supportive relationship with key adults who can spend regular times to help stabilise students' emotions and build a rapport.
- Provides bespoke intervention and support packages to help students to become emotionally literate.
- Allows students to go to the Behaviour Support Unit as a safe place if they need to leave lesson if they are unable to cope.
- Uses positive rewards-the BSU reward system and lesson monitor report provides students with opportunities to receive positive feedback and allows staff to monitor individuals' moods and assess whether behaviour is appropriate to go into lesson or remain in the BSU provision.
- Provides clear and predictable routines and allows for key staff to allocate TA support on a lesson by lesson basis depending on needs at the time.

All teachers have access to SEMH information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the SIMs network for all staff to access. PLD training sessions will be available for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

SENSORY AND/OR PHYSICAL:

Visual impairment, hearing impairment or multi-sensory impairment. Students who have a disability which prevents or hinders them from making use of the facilities generally provided will have their needs met through arrangements put in place via the SENDCo, Assistant SENCo, Occupational Therapist or Medical Officer.

The Academy will liaise with the Hearing/Visual/SLC impairment services for additional advice where necessary and will refer to services if needed. The impairment services will support students in lessons, offer strategies and will meet with parents throughout the year.

A specialist team of staff support those students with a physical disability in each of their lessons. They also provide physiotherapy to those students who need it daily.

All teachers have access to Sensory or Physical information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the SIMs network for all staff to access.

WORKING WITH OUTSIDE AGENCIES: INVOLVING SPECIALISTS

Wath Academy seeks advice and help from agencies and works in partnership with them to meet the special needs of students. Where a student continues to make little or no progress, despite well-founded support that is matched to the student's area of need; the SENDCO/Assistant SENDCo will consider involving specialists, including those from outside agencies. Permission will be sought from parents.

The Academy may involve specialists at any point to advise them on early identification of SEND and effective support. The Academy will involve a specialist where a student continues to make little or no progress over a sustained period or where they continue to work at levels substantially below those expected of children of a similar age despite well-founded SEND support. The student's parents will be involved in any decision to involve specialists. The involvement of specialists and what was discussed or agreed should be recorded and shared with the parent and teaching staff supporting the child in the same way as other SEND support.

The SENDCO and class teacher, together with the specialists, will consider a range of effective teaching approaches, appropriate equipment, strategies and interventions to support the child's progress.

THE EDUCATIONAL PSYCHOLOGIST

The Educational Psychology Service work with children, parents, schools, other education settings and health and care agencies to apply the principles of the SEN Code of Practice to:

- help children and young people improve their learning and achieve the best they can in life
- promote the inclusion of all children and young people in the life of their school and in the local community.

Educational Psychologists (EPs) use their skills and expertise in applying psychology to help parents and schools to improve learning and inclusion outcomes for children and young people. We work with parents to develop and deliver the best ways to overcome difficulties with learning and inclusion, particularly where young learners are not achieving very well. They will do this by:

- working in schools and education settings to plan and deliver improved outcomes for young learners by following the principles of the SEN Code of Practice
- supporting schools to work closely with families in helping their children and young people to improve their learning and life outcomes
- contributing to statutory Education, Health and Care Plan (EHCP) activities for individual children and young people, and providing information, guidance and advice to the local authority.

CHILD AND ADOLESCENT MENTAL HEALTH SERVICES (CAMHS)

CAMHS are mainly local services that provide mental health assessment and treatment services to children, young people and their families. They also provide advice, consultation and support to other individuals and agencies involved in children's care. A range of professionals may work in CAMHS including therapists, nurses, psychiatrists, psychotherapists, psychologists and social workers.

With Me in Mind supports students individually and groups by providing CBT to students who present with low level anxiety, stress or depression. The sessions aim to provide students with strategies that they can use and

apply to help them to fully access school life and socially outside of the school setting. Where the CBT has not had an impact, this will be then referred for further CAMHS investigation via the WMIM practitioner.

OCCUPATIONAL THERAPISTS

Occupational therapists help children and young people achieve or maintain their maximum level of independence and develop the practical life skills needed to participate to their full potential at home and in education.

PHYSIOTHERAPISTS

Physiotherapists are concerned with a child or young person's balance, movement and coordination. In schools, the physiotherapist will advise the teacher and classroom assistant on activities which will be helpful, such as exercise routines and games which could be done during PE lessons.

CAREERS ADVICE

The Careers Advisor is central to facilitating a successful transition from education to employment for young people with more complex special needs. The advisor will also provide support to employers, increasing their confidence in working with these young people and helping them to understand the business case for employing a diverse workforce. SEND students will be offered careers interviews from Y10- SEND students with EHC Plans will have careers advice from Y9. All SEND students are supported in their interviews by a member of the Inclusion Department.

SOCIAL SERVICES

The Academy will always co-operate with Social Services when a student is either 'in need' or 'at risk' of significant harm. Safeguarding Officers, where appropriate, will remain responsible for communication with social care.

SPECIAL EDUCATIONAL UNITS/ALTERNATIVE PROVIDERS

Liaison with special educational units will sometimes be necessary for advice, resources, or possible reintegration into mainstream for some students who have needed to spend time at another establishment.

A visit to Alternative settings will be carried out every 6 weeks and attendance is communicated daily via the attendance team. The SENDCo will track the progress.

Referring to Outside Agencies (Wave 3)

In all cases involving the above support services, the SENDCo will aim to observe the following procedures:

- Decisions will be reached by the SENDCO in collaboration with the Assistant SENDCo, PYL and relevant Safeguarding staff.
- Parental permission will be sought and a formal request for specialist support will be made.
- Arrangements will be made to collect relevant information about the nature and extent of the student's problems and pass it on to the agency.
- Arrangements will be made for external specialists to observe/assess/meet with students, parents and teachers if necessary.

- Educational plans and provision will be adapted to consider the specialist advice and support offered.
- Plans will be shared and discussed with the student and parents.

WORKING IN PARTNERSHIP WITH PARENTS AND CARERS

We aim to ensure that the wishes, feelings and knowledge of parents are considered when making assessments and planning actions to meet their children's special needs.

We encourage parents to recognise that they have responsibilities towards their children, and that the most effective provision will be made when they work in partnership with the Academy and other agencies to meet their children's special needs.

Parents of students with special needs will be given the same general information and chances to share in their children's progress as all parents. In addition to this, parents of students with special needs may require and expect information in the following:

- The Academy SEND report via the website
- The SEND support available from both the Academy and the LA
- The SEND assessment and decision-making procedures
- Other services provided by the LA for Children in Need
- Local and national voluntary organisations which may provide advice and counselling
- The work of the parent partnership services. The Academy values highly a partnership with parents in obtaining the most effective provision for students with special needs. This partnership includes:
 - The Academy explaining to parents its concerns about their children's special needs and strategies that may be used to meet their needs
 - Parents working with the Academy in supporting special programmes and encouraging their children to take an effective part in them
 - The Academy responding quickly to parental concerns about student's special educational needs
 - Parents responding quickly to the Academy's request for their involvement in meeting their children's special needs
 - The Academy and parents having joint meetings, to set clear goals, discuss the activities and support that will help achieve them, review progress and identify the responsibilities of the parent, the pupil and the school.

It should provide an opportunity for the parent to share their concerns and, together with the teacher, agree their aspirations for the child. The views of the child will be included in this planning. This could be through involving the child in all or part of the meeting or gathering their views as part of the preparation for the meeting. Following the meeting the SENDCo or Assistant SENDCo will need to inform all the appropriate school staff of the outcomes and agreed targets, as well as updating the student's record as appropriate.

USE OF DATA AND RECORD KEEPING

Provision made for students with SEND is accurately recorded and kept up to date. This will form part of regular discussions with parents about the child's progress, expected outcomes from the support and planned next steps. The Intervention Log displays accurate information to evidence a graduated approach to the SEND support that has been provided over the student's time in the Academy, as well as its impact.

The provision that the Academy makes which is additional to and different from that which is offered through the Academy's differentiated curriculum is recorded on the Intervention Log and is used to clearly track and monitor a graduated approach. Recording information on SIMs enables the SENDCo to maintain an overview of the collective programmes of individual children and young people and provides a basis for monitoring the levels of intervention and assessing the impact on progress.

The SENDCo/Assistant SENDCo will track, and monitor SEND students' progress and data using Learning Cycle data and matrices. Learning cycle data will be tracked to ensure students who are not making progress are identified and interventions to support students make progress can be put in place.

IN SERVICE TRAINING

The Academy aims to encourage all staff (teaching and non-teaching) through both external and internal in-service training, to develop and reflect upon their understanding of special educational needs and their expertise in providing for students with such needs, in accordance with Academy development plans.

Teaching staff are encouraged to;

- Develop their understanding of special needs and the educational, social and personal implications for a student having special needs.
- Develop their teaching expertise in providing for students having special needs.
- Develop a secure knowledge of differentiation to provide high quality teaching for all students.
- Keep up with any new initiatives, procedures and legislation in SEND.

As the Academy continues to develop the use of Teaching Assistants, we are also aware of the need for them to benefit from the in-service training and for teaching staff to be trained in the best ways of utilising Teaching Assistants as an important resource to the Academy.

ACADEMY BASED TRAINING

PLD Sessions/Teaching and Learning sessions:

- The Role of the SENDCo/SEND
- The Use of Other Adults
- Adapting practice to meet SEND needs
- SEMH characteristics, strategies to support, cohort overview
- Autism characteristics, strategies to support, cohort overview
- Dyslexia/Dyslexic tendencies characteristics, strategies to support, cohort overview
- MLD characteristics, strategies to support, cohort overview
- LAC and Attachment Disorder characteristics, strategies to support, cohort overview
- Visual Impairment characteristics, strategies to support, cohort overview
- All Teaching Assistants to attend and participate in-house and follow the MLT training plan.

EXTERNAL TRAINING

Courses aimed at the SEND department to develop policies and practice, and to examine new legislation and guidance in this area.

External agencies provide training for teaching staff in school during INSET time.

Courses for Teaching Assistants to develop their general understanding of SEND issues and to be trained in support strategies.

Student placed on Monitor list</p> <p>Review- Information gathered again from Teaching staff to check progress/outcomes.</p> <p>At this stage, the student is not on the SEN register. They are listed as M Monitor. They do not have an IEP.</p>	<p>Despite Quality First Teaching/Differentiation there are still concerns a student is not making good progress and they may have an unidentified SEN, the SEND team will implement action to remove barriers to learning and put effective provision in place. This may be a small group or individualised intervention or in class support.</p> <p>APDR Assess- Look at the information used at review of Wave 1 intervention stage attendance behaviour and LC data.</p> <p>Plan-Contact parents and obtain permission for student to be placed on SEN register. Discuss with appropriate staff who will be carrying out intervention.</p> <p>Do- Place on SEN register at K Complete IEP Carry out Intervention</p> <p>Review-Information gathered from Teaching staff/intervention lead including Impact reports.</p> <p>At this stage, the student is on the SEN register and the code is K SEN Support. They will have a primary Need which will be shown on Sims and their IEP. They may have a keyworker.</p>	<p>Where a student continues to make less than expected progress, despite evidence-based support and interventions that are matched to the student's area of need, the school should consider involving specialists, including those secured by the school itself or from outside agencies.</p> <p>APDR Assess-Look at the information used at review of wave 2 intervention stage.</p> <p>Plan-Contact parents and discuss referrals to outside agencies. Obtained signed referral forms</p> <p>Do- Specialists in school or from outside agencies assess student and offer advice/recommendations . Shared with staff and parents and further interventions, if recommended, put in place</p> <p>Review-Information gathered from staff involved with the student. Relevant data analysed.</p> <p>At this stage, the student is on the SEN register and the code is K SEN support. They will have an IEP. They may have a SEND Support plan and a keyworker.</p>	<p>Where, despite the Academy having taken relevant and purposeful action to identify, assess and meet the SEND of the student, they have not made expected progress, the Academy will request an Education, Health and Care Plan.</p> <p>APDR Assess-Look at all information available from the previous 3 waves of intervention</p> <p>Plan- Contact parents to obtain permission to apply for an EHC plan. Refer to EP and LSS (if required)</p> <p>Do- Update SEN support plan. Submit referral for EHC plan using EHC HUB. If plan agreed ensure relevant support is in place as per statutory guidance.</p> <p>Review- review support through EHC plan cycle.</p> <p>At this stage, the student is on the SEN register and if a plan is issued the code is E (Education health and Care Plan). The student has undergone a statutory assessment by the LA and the school must put in place the provision outlined in the plan. The student will have a keyworker.</p>

The Graduated response refers to the Assess, Plan, Do Review cycle at each wave of intervention.

Most student's SEN can be met through Quality First Teaching which includes appropriate differentiation.
